Barcelona Segway Tour Responsible Tourism Policy

As we are aware of the importance of a sustainable tourism development, and assuming the principles and objectives specifically adopted at the World Summit on Sustainable Development 2015, COP 21 and the World Charter for Sustainable Tourism +20, on the 1st of January 2021, Barcelona Segway Tour commits to manage its activities in a sustainable manner, by adopting measures aimed at preventing, eliminating or reducing the impact of our facilities and activities, both internal and external, as well as optimizing the sustainability of our business by improving how we interact with the environment.

In the same sense, our company has adopted this Responsible Tourism Policy, by means of which it commits to comply with the requirements established in the BIOSPHERE membership, which includes, among other things, the legal requirements that regulate the effects generated by tourism activity.

We are committed to motivate and educate our staff with training and awareness actions on the principles of Responsible Tourism, to promote good environmental practices where we operate and participate in external activities, as well as to report both internally and externally on the progress on environmental actions taken by our company.

Our establishment expresses its commitment to fight against sexual exploitation or any other form of commercial exploitation and harassment, in particular of children, adolescents, women and minorities; and we are committed to adopting universal accessibility measures.

One of our main objectives is to cultivate a sustainable management culture in our organization, striving for continuous improvement in all areas of sustainability: social, economic and environmental, as well as in the satisfaction of our customers. To this end, future expansion projects of our facilities and activities will be subject to criteria of sustainability and efficiency in the use of resources.

This Responsible Tourism Policy will be updated whenever circumstances require, adopting and publishing the sustainability objectives that our organization commits to.

Vincent Dammann
